

Please see the list of clarifying questions for the RFP for Transportation GPS & Camera Systems.

- Regarding Maintenance on Pg. 4, does the school require a set number of on-site maintenance visits per year for the life of the agreement?
No. The district does not have a required maintenance cycle.
- Regarding Additional Information on Pg. 4, is there a specific quantity of spare parts and test equipment for this requirement?
No. Please propose a quantity of spare parts and test equipment in your offer.
- Regarding Cameras on Pg. 3, is the 3-camera configuration the same for both the general education and special education buses, given the different passenger capacities of the buses?
Yes.
- Regarding storage, how many days/weeks of on-board storage is desired? Is the 1-year storage requirement related to on-board storage or is that related to the cloud storage?
On-board storage is required until data has been transmitted to the cloud. Frequency can be proposed.
1 year storage requirement may be server or cloud based.
- How much long-term cloud storage does the school require?
1 year
- Are there existing data connections (Example: Cradlepoint Routers) on the buses for the system to connect to perform live viewing while the vehicles are mobile?
No. There are no existing data connections on buses.
- For live view, what is your minimum specification? (Example: Frame/refresh rate)
30 frames/second minimum
- What are the daily hours of operation for the special education and school buses?
4:00 am to 6:00 pm
- What are the daily hours of operation for the white fleet vehicles?
4:00 am to 6:00 pm
- What are the accessible days/hours of operation for your bus yard/service facility?
Bus yard is located on a secure facility, and escorts are required for access. The yard is operated between 4:00 am and 6:00 pm daily Monday through Friday.

- Do you have existing Wi-Fi coverage in your bus yard?
No. There is no existing Wi-Fi in the bus yard
- Are there existing systems that need to be removed from buses/vehicles? If so, how many?
No
- Is the school tax exempt?
The school is tax exempt from property taxes, but not from sales tax
- How often is SSUSD envisioning using live streaming?
Daily or as-needed.
- One dual front and back facing camera to record vehicles violating stop sign and possible outside rear incidences for buses. Does SSUSD want an additional exterior camera at the rear of the bus for additional rear coverage?
No
- Is there a specific number of users SSUSD would require for the tracking and pick-up/drop-off software application?
Unknown at this time
